Mission learning record

Cadet **CADET** · Generated Nov 3, 2026 · Saved in this browser

MISSION READINESS	MISSIONS COMPLETE	DECISIONS RECORDED	EXPLANATIONS WRITTEN
45/100	0/10	0	0/0

Readiness profile

Safety awareness	48%
Resource management	46%
Planning	45%
Science	43%
Emergency response	44%
Teamwork	48%
Sustainability	44%
Decision explanation	40%

STRONGEST Safety awareness · 48%

PRACTISE NEXT Decision explanation · 40%

Mission sequence

- 01 · Welcome to Astronaut Training
  IN PROGRESS
- 02 · Choose Your Spacesuit
  LOCKED
- 03 · Build Your Mission Kit
  LOCKED
- 04 · Lunar Power Challenge
  LOCKED
- 05 · Radiation and EVA Mission
  LOCKED
- 06 · Greenhouse and Water Mission
  LOCKED
- 07 · Mars Communication Delay
  LOCKED
- 08 · Dust Storm Emergency
  LOCKED
- 09 · Crew Health and Teamwork
  LOCKED
- 10 · Mission Commander Challenge

Evidence of learning

SYSTEMS PROTECTED
Oxygen, Water, Power, Food, Crew Health, Materials

SYSTEMS WITH REDUCED RESERVES
No system dropped below its starting reserve.

BADGES
No badges yet.

NEXT MISSION
Welcome to Astronaut Training

Discussion prompts

1. Can you explain a decision in one sentence using benefit, cost, and later risk?
2. How did the crew protect Oxygen while science received less attention?
3. What would you decide differently on a second attempt, and why?

Not a real spacecraft control system and not a NASA product.
